SUMMARY

Graphic designer with 6+ years creating key visuals, social media content, brand identities and motion graphics for 20+ brands in Saudi Arabia, the UAE, Oman, Qatar, Jordan and Egypt. Designs in Arabic and English with strong Arabic headline type. When a shoot isn't possible, builds the scene with generative AI, then finishes it by hand in Photoshop and After Effects. Recent work: identity systems for beauty, retail and legal brands, and After Effects reels for F&B and retail clients.

SELECTED WORK

- **Key visuals:** Saudi National Day, the October War anniversary, and a delivery campaign carried by one bold Arabic headline. Villa launch: a family placed in front of the house to sell the life inside it.
- **Brand identities:** Gamela Beauty Clinic, CARLY, IVY, Khayrat Al-Ahsa and a Saudi law firm: logo, palette, typography, guidelines and mockups.
- **Motion:** animated product and offer reels for Pancakes Coffee, Dr. Scent (Qatar), GREE and RAQI in After Effects.
- **AI video:** talking-character ads in Gulf dialects for a Saudi financing company (Veo 3, Google AI Studio, ElevenLabs), a recurring AI podcast host for the Siredo 2026 real estate exhibition (KSA), and UGC-style AI ads for Ozone International (UAE).

EXPERIENCE

Graphic Designer (In-house)
Pancakes Coffee | Egypt | Oct 2024 – Present

- Run the cafe's social media content creation (posts, story menus, offers and delivery-app listings) inside a strict navy-and-white brand system.
- Edit short-form videos for Instagram Reels and TikTok and animate motion graphics for new drinks and offers in After Effects and Premiere Pro.
- Produce AI-generated product scenes retouched in Photoshop; each finished scene takes under an hour.

Graphic Designer (Freelance)
Thqa Marketing Agency | Remote | 2022 – Present

- Design launch key visuals and social media campaigns for Saudi and UAE clients in real estate, recruitment, food, healthcare and retail.
- Build brand identities from logo to color palette, typography and brand guidelines.
